MULTI-TOUCH

MULTI-TOUCH

Micro Industries® elevates dynamic digital signage technology to the next level with the **Touch&Go Messenger® 46P**. This 46-inch high definition (HD) LCD all-in-one computer delivers 1080 x 1920 picture resolution. When combined with single touch or multi-touch, this computer becomes an exciting interactive kiosk. High definition ultra-bright dynamic media can be viewed up close and from across the store in addition to providing customer information at the touch of a button.

The 3rd Gen Intel® Core™ i5 or i7 Processor delivers breakthrough graphics performance and improved power savings so that the Messenger 46P delivers complex multi-media graphics simultaneously without slowing down. The high-definition video capabilities produce exciting, important and persuasive information to consumers at the point of decision.

Messenger 46P is retail-ready. Use it dependably for customer kiosk transactions, digital signage, store maps, advertising and messaging, product information and interactive restaurant menus. Mounted on a wall, suspended from the ceiling, or positioned on our unique digital lollipop stand, this large format screen will be easily noticed from anywhere in the store.

Use our Touch&Go Software to remotely manage and control multiple screens and touchpoints throughout your store. For more information on Touch&Go software, visit www.microindustries.com/software.
